

Is your child next in line?

Hypertrophic Cardiomyopathy (HCM) is a serious heart condition that affects 1 in 500 people. HCM is a disorder that causes excessive thickening of the heart muscle and can potentially lead to sudden cardiac arrest. HCM is the leading cause of sudden cardiac death in athletes and may often be detected by noninvasive tests. Be next in line to take a step toward detection.

Heart Screening for Young Athletes

Pre-registration is required for this event. To register, go to www.TexasHealthFlowerMound.com.

- WHO:** Students, ages 14-18, participating in athletics, cheerleading, dance, marching band and other strenuous activities
- DATE:** Saturday, March 26th
- TIME:** 8 a.m. - Noon
- LOCATION:** Texas Health Presbyterian Hospital Flower Mound at 4400 Long Prairie Road

Students must have a signed parental waiver in order to receive the screening. This form can be found at www.championshipheartsfoundation.org. For additional information, please call 512-340-7313. There is no charge for the screening, however a suggested contribution of \$25 is appreciated to help defray some of the costs and also to support the work of the Foundation. Championship Hearts Foundation is a 501(c)(3) nonprofit organization.
